## Enter to Win a Pontoon Charter or Kayaking Trip by Filling Out this Dumpster Maintenance and Waste Materials Checklist!

Stormwater runoff is generated when rain and snowmelt flow over land, paved streets, or parking lots and does not soak into the ground. The runoff picks up pollutants like trash, chemicals, oils, and dirt/sediments that can harm our rivers, streams, lakes, and coastal waters.

**Your business can help prevent stormwater pollution by doing the following items. Check off the items you were already doing, and the things you'll do in the future.**

- | Before                   | Now, I will  |
|--------------------------|--|
| <input type="checkbox"/> | <input type="checkbox"/> Dry sweep paved areas on a regular basis, especially around storm drains. This includes parking lots, patios, sidewalks & dumpster areas. Do not use a hose to wash down pavement.                              |
| <input type="checkbox"/> | <input type="checkbox"/> Collect and dispose of debris in dumpster. Do not sweep into the gutter or storm drain.   |
| <input type="checkbox"/> | <input type="checkbox"/> Cover dumpsters and keep them clean to avoid leaks.   |
| <input type="checkbox"/> | <input type="checkbox"/> Make sure a plug is installed in the container's drain opening, which is usually near one of the back corners of the container. Without a plug, liquid wastes in the container are allowed to discharge freely. |
| <input type="checkbox"/> | <input type="checkbox"/> Check regularly for leaks, and replace if necessary.  |
| <input type="checkbox"/> | <input type="checkbox"/> Never wash down dumpsters with a hose. If cleaning is needed, contact the leasing company.  |
| <input type="checkbox"/> | <input type="checkbox"/> Schedule regular waste pick-ups.  |
